25X1

1. In May 1954 it was learned at Funkamt Beelitz (Beelitz radio office) that the new radio monitoring station, which was under construction on the former Musa terrain at Elsholz near Beelitz, was to become the main East German radio control station. An architect had already been ordered to prepare the building plans.

2. On 15 May 1954, the Soviet liaison officers transferred from Funkamt Beelitz to Karlshorst. Voikov and Baranyev were the names of two of those officers. After that date the head of the evaluation department at Funkamt Beelitz personally submitted the results of radio monitoring to Karlshorst every two weeks.

3. In May 1954, the following transmitters were put into service in Koenigswusterhausen:

Call sign DKU, frequency 12,035 kcs
Call sign DKV, frequency 11,600 kcs
Call sign DKX, frequency 9,047.5 kcs

A transmitter recently erected in Peking was in operation in the late afternoon and during the night; its call sign was BAR 5 and its frequency 10,320 kcs.

4. For the period from 15 October 1954 to 15 December 1954, a course of instruction is planned for radio operators who wish to qualify for a class II radio license. Another course on VHF and television techniques is also scheduled.
